Hi Jessi,

Looks good for you to get some shooting time for B roll of our sampling activity next week (not likely that anything more will happen before Monday). You will also need to get permission and access from the homeowner(s) to do this. You may also need to get permission from the sample collector(s), who are more than likely contractors rather than EPA employees. Best way to proceed is to contact Trish Taylor, the EPA Community Involvement Coordinator (CIC) on site, by cell at 215-514-2732. Trish can suggest which of the residents scheduled for a sample would be likely to permit a video shoot and help facilitate the setup. You can also contact Trish by email, and I have copied her in on this message so that you have her email info. In case there are signal problems in the Dimock area, I have also copied in Helen DuTeau, who supervises the CIC function here at the office. If you have any difficulty contacting Trish, I suggest you go through Helen. You can reach her at 215-814-5521. And of course, feel free to contact me if I can be of any help.

Hi Michael,

Thanks again for taking the time to speak with me last week. Just touching base to see if you've had time to find out if one of our photographers could grab some b-roll of the Dimock water sampling we discussed.

Thanks for your help!

Jessi

Hi Jessi,

Nice to talk to you today. Below are the sites I mentioned on our call. Please feel free to contact me if I can be of help.
